

"Master Lo's Four Pillars and I-Ching courses have provided me with both personal and professional enrichment. I was amazed at how Master Lo structured and delivered his teachings in such a comprehensive and easy to understand way. Thank you also for your efforts in making the course run smoothly and taking time to share a few pearls of wisdom with me".

"Thanks for persuading me to attend the Feng Shui Course. It was an eye opening experience and it has brought the stuff that I read in books together as well as new ideas that I wasn't aware of.

Grandmaster Lo is a great teacher. He really gave a lot of examples to highlight the various formulas and theories. Grand Master Lo's, Lo Pan is also a useful tool for me to practise the theories that I have learnt and serve as a reminder that there is a lot about Feng Shui that I do not know and have to pursue this knowledge further".

"Master Lo has a logical and methodical approach to teaching. He displays patience and a desire to ensure that each student understands what is being discussed."
